Product Change Request: Cross-Border Commercial Remittance Corridor

Expansion into High-Velocity Latin America & UAE Trade Settlement Accounts

Initiative Ref:	PCR-2026-0881	**Change Type:**	Geographic Expansion
Business Division:	Global Transaction Banking	**Risk Officer:**	Sarah Lin, Director
Target Go-Live:	2026-11-15	**Screening Status:**	Pending Screening Review

1. Executive Summary & Change Scope

Global Transaction Banking requests authorization to open multi-currency operational clearing accounts for cross-border Money Services Businesses (MSBs) and commercial trade aggregators. This change expands the bank's wire transfer settlement corridor to support payment routing between North America, Latin America, and designated commercial free zones in the United Arab Emirates.

The initiative introduces nested correspondent relationships and automated SWIFT MT103/MT202 clearing capabilities for high-frequency business remittances.

2. Counterparty Entities & Beneficial Ownership

Primary Applicant: Meridian Global Payments LLC, an authorized foreign exchange and commercial remittance aggregator registered as an MSB with FinCEN (Registration No. 310002891142). Customer type: money services business.

Key Intermediary / Affiliate: Meridian Overseas Holdings Ltd, operating as offshore liquidity and settlement conduit. Ownership: 45% held by Meridian Overseas Holdings Ltd.

Executive Principal: Carlos Mendoza-Vargas (Managing Director and Controlling Beneficial Owner, 55% voting equity).

3. Operational Jurisdictions & Cross-Border Corridors

Originating Jurisdictions: United States (Florida, New York, Delaware) and Mexico.

Transit & Destination Corridors: Colombia (Bogota, Medellin) and United Arab Emirates (Dubai DMCC / Abu Dhabi).

No direct customer exposure in sanctioned jurisdictions; however, transit through UAE free-zone trade corridors requires enhanced transaction monitoring under POL-045 and Bank Secrecy Act cross-border standards.

4. Transaction Mechanics & Currency Profile

Anticipated Monthly Inflows: $18,500,000 to $25,000,000 across wire transfers and correspondent book transfers.

Physical Cash Intensity: 0% physical currency. All funding occurs via commercial SWIFT wires and Fedwire.

Settlement Velocity: High-velocity same-day turnover with average individual transaction size of $145,000.

5. Third-Party Vendors & Custody Relationships

SWIFT Messaging Hub: Alliance Cloud Financial Messaging Interface.

Liquidity Provider: Banco Mercantil de Las Americas (Bogota) and Emirates NBD Correspondent Banking Unit.

6. Target Launch & Governance

Target production implementation date: November 15, 2026. Because of cross-border corridors and nested correspondent accounts, this submission requires full Gate 1 review and formal FCRM Governance Committee sign-off.
