Product Change Request: Commercial Fleet Fuel & Maintenance Card

Corporate Expense Credit Line Expansion for Domestic Transport Operators

Initiative Ref:	PCR-2026-0419	**Change Type:**	Product Modification
Business Division:	Commercial Lending & Cards	**Risk Officer:**	David O'Connor, VP
Target Go-Live:	2026-10-01	**Screening Status:**	Clean

1. Overview & Initiative Scope

Commercial Lending proposes a routine product modification to the existing Corporate Fleet Card program, authorizing an increased credit ceiling from $250,000 to $750,000 for verified logistics companies. The card features hard Merchant Category Code (MCC) velocity controls restricting card usage exclusively to automated fuel pumps, commercial truck repairs, and highway tolls.

2. Customer Segment & Key Entities

Target Segment: Domestic commercial freight logistics companies and regional transport operators.

Pilot Corporate Customer: Midwest Express Logistics Inc (ICC Motor Carrier No. MC-892110).

Beneficial Owner: Robert J. Callahan (100% equity). Customer type: commercial transportation operator.

3. Operating Jurisdictions

Operations are confined strictly within the United States: Texas, Illinois, Ohio, and Indiana. No foreign transactions, international cardholder billing, or cross-border travel are enabled.

4. Transaction Mechanics & Cash Profile

Cash Advance Facility: Disabled at network level. 0% cash withdrawal capability.

Settlement: Automated Clearing House (ACH) commercial debits on Net-30 revolving business terms.

Transaction Type: Closed-loop POS fleet transactions with automated fuel pump telematics.

5. Vendor Network

Payment Network: Mastercard Commercial Fleet Network and WEX Fleet Clearing Solutions.

6. Regulatory Governance & Timeline

Target Go-Live Date: October 1, 2026. Routine modification of an existing credit line; minimal financial crimes exposure, qualified for fast-track Gate 1 approval under POL-010 Section 3.2.
