Product Change Request: International Private Wealth Trust Depository

Customer Segment Expansion — Ultra-High-Net-Worth Foreign Trust Depository

Initiative Ref:	PCR-2026-1190	**Change Type:**	Customer Segment Expansion
Business Division:	International Private Bank	**Risk Officer:**	Julian Sterling, Managing Dir
Target Go-Live:	2026-11-01	**Screening Status:**	PEP Identified — Amara Chukwuemeka Obi

1. Overview & Service Request

The International Private Banking division requests approval to establish a specialized wealth management depository and custodial investment account structure for foreign ultra-high-net-worth (UHNW) families utilizing offshore trust and corporate holding vehicles.

2. Primary Customer & Beneficial Ownership

Primary Named Principal: Amara Chukwuemeka Obi, former government infrastructure minister and corporate executive. Beneficial ownership: 100% economic beneficiary of Obi Heritage Capital Trust.

Holding Vehicle: Obi Heritage Capital Trust, a discretionary wealth preservation trust organized under Bahamas trust law. Customer type: non-resident private wealth trust / PEP.

3. Operational Jurisdictions

Jurisdictions: United States (Florida - Miami Private Banking Center), United Kingdom (London), and Nigeria (Lagos).

Source of Wealth: Corporate equity liquidation from telecommunications concessions and African infrastructure development holdings.

4. Transaction Profile

Initial Inflow: $12,000,000 inbound wire transfer originating from Barclays Bank PLC (London).

Physical Cash Intensity: 0% cash. Physical currency deposits are strictly prohibited in the private banking facility.

Ongoing Velocity: 4 to 8 high-value wire transfers per quarter for capital calls, tax disbursements, and liquid bond investments.

5. Third-Party Service Providers

Trust Administrator: Sovereign Trust Management (Bahamas) Ltd. Legal Counsel: White & Case LLP.

6. Target Launch & Escalation

Target Date: November 1, 2026. Because Amara Chukwuemeka Obi is a Politically Exposed Person (PEP), POL-045 mandates a minimum High risk floor, enhanced source-of-wealth validation, and Gate 2 Committee ratification.
