Product Change Request: Instant Payment Clearing & Vendor Gateway

Third-Party Vendor Onboarding — RTP & FedNow Gateway Integration

Initiative Ref:	PCR-2026-0305	**Change Type:**	Vendor Relationship
Business Division:	Payments & Digital Channels	**Risk Officer:**	David Miller, Lead Analyst
Target Go-Live:	[PENDING CLARIFICATION]	**Screening Status:**	Vendor Alert Triggered

1. Overview

Digital Payments submits a proposal to integrate a third-party application programming interface (API) gateway to support 24/7 instant retail credit push disbursements through The Clearing House Real-Time Payments (RTP) and Federal Reserve FedNow networks.

2. Vendor Information & Entities

Technology Vendor Partner: Summit Peak Vendor Services, a technology contractor providing core connectivity and routing algorithms for immediate fund settlements.

Customer type: third-party payment service provider.

Entity Status: Summit Peak Vendor Services is subject to ongoing vendor risk review.

3. Jurisdictions & Geographic Scope

Operating Jurisdictions: Nationwide domestic payment coverage.

Specific operating state licensing, processing data center locations, and business continuity redundant nodes have not yet been specified by the vendor.

4. Transaction Profile

Expected Transaction Type: Real-time electronic credit push payments.

Volume Projection: Estimated $50M/month aggregate throughput; maximum single-transaction limit has not been finalized.

Cash Intensity: 0% physical currency.

5. Outstanding Documentation & Deficiencies

Missing: Final third-party SOC-2 audit report, PCI-DSS compliance attestation, transaction velocity caps, and signed indemnification schedule. Target production go-live date remains unscheduled.

6. Intake Disposition

This case lacks required operational dates and risk control parameters. Per FCRM procedure M1, this case must be flagged as needs_more_information for a Gate 1 Request for Information (RFI) to the product owner.
